CORE COMPETENCIES

- Requirement Gathering & Analysis
- Agile Project Management
- Scrum Master & Agile Ceremonies
- Stakeholder & Delivery Management
- Release & Sprint Planning
- RAID Management
- Regulatory Comp (HIPAA, GDPR, FDA)
- QA Strategy & Governance
- Test Automation Frameworks
- API & Integration Testing
- AI-Assisted Testing & Gen AI
- Defect Lifecycle Management
- CI/CD Implementation
- KPI Dashboards & Reporting
- Team Leadership & Mentoring
- Continuous Improvement Initiatives

TOOLS & TECHNOLOGIES

Automation: Selenium WebDriver, Playwright, Pytest, MCP, Robot Framework, Postman, Unittest, API Testing, JMeter, Appium, Data-Driven Frameworks, Hybrid Frameworks

Languages: Python, Oracle SQL, Shell Scripting

Agile Tools: JIRA, Confluence, Zephyr, Jenkins, HP ALM, MS Project

Version Control & Collaboration: GitHub Co-pilot, SVN, Bugzilla

Databases: Oracle, SQL Server, MS Access

Cloud/DevOps: Microsoft Azure, Docker, CI/CD Pipelines

Operating Systems: Windows, Unix/Linux

AI Tools: Generative AI, AI Agents, LLM, Prompt Engineering

PROFESSIONAL SUMMARY

- Results-driven Senior QA Leader with Project Management having 16+ years of experience in Quality Engineering, Agile Project Delivery, Scrum Management, User story creation, Test Automation, Stakeholder Management, and Enterprise Application Testing across Supply Chain, Banking, Financial Services, Healthcare, and E-Sourcing domains.
- Proven expertise in leading cross-functional teams, driving digital transformation initiatives, implementing automation frameworks, managing Agile ceremonies, and delivering enterprise-scale projects with measurable business impact.
- Strong hands-on experience in Selenium, Playwright, Python, Robot Framework, API Testing, CI/CD pipelines, AI-assisted testing and Project management and enterprise reporting solutions.
- Skilled in risk mitigation, sprint management, quality governance, compliance standards, and mentoring distributed teams to improve delivery efficiency and software quality.

PROFESSIONAL EXPERIENCE

Freelance Project Management

Jun 2025 – Present | **Consultant**

- Managed end-to-end software project delivery from initiation through deployment for multiple client engagements.
- Tracked project progress using Jira, Confluence and Azure DevOps while providing regular status reports to stakeholders.
- Designed and implemented automation frameworks using Playwright, MCP, Python, AI Agents, Github Copilot.
- Created AI Agents for multiple project management activities, AI-assisted test case generation workflows for web applications.

Client: Freelance, Portfolio projects

Persistent Systems Limited, Bengaluru

Aug 2023 – May 2025 | **Senior Engineering Lead – Quality**

- Led end-to-end project delivery activities including requirement analysis, sprint planning, execution, test strategy, monitoring, release management, and stakeholder reporting.
- Managed Agile Scrum teams by facilitating Sprint Planning, User story writing, Daily Standups, Sprint Reviews, Retrospectives, and backlog refinement sessions.
- Directed testing initiatives across functional, regression, integration, smoke, database, UI/UX, API, Shift Left testing and acceptance testing.
- Implemented CI/CD pipelines that reduced deployment time by 75% and improved product quality by 90%.
- Improved operational efficiency by reducing manual effort by 40% and achieving 25% ROI improvement through workflow optimization.
- Monitored sprint velocity, burndown metrics, release readiness, and delivery KPIs to ensure predictable project execution. Collaborated with Product Owners, business stakeholders, and engineering teams to prioritize backlogs and resolve delivery bottlenecks.
- Led quality initiatives across web, API, and mobile platforms, driving automation, performance validation, security compliance.
- Led AI automation initiatives using Selenium, Playwright, Python, Pytest, and Robot Framework. Built dashboards and reporting mechanisms to improve executive decision-making and delivery visibility.
- Led and mentored a team of 15-20 QA engineers across multiple projects, promoted Agile best practices, continuous improvement, and quality ownership culture.
- Worked on Transportation Management and Supply Chain applications with exposure to data products, APIs, and AI-driven analytics use cases.

Client: Blue Yonder. **Environment:** Selenium, Playwright, AI, Python, Robot Framework, Jenkins, JIRA, Zephyr, JMeter, Appium, SQL Server, Azure, GitHub, API Testing

Ocwen Financial Solutions Pvt. Ltd., Bengaluru

Feb 2020 – Sep 2022 | **Senior Analyst / Lead QA**

KEY ACHIEVEMENTS

- Reduced deployment time by 75% through CI/CD implementation and automation improvements.
- Improved operational efficiency by reducing manual effort by 40%.
- Achieved 25% ROI improvement through workflow optimization and process enhancements.
- Recognized as “Quality Champion” and “Best Team Member” for outstanding delivery performance.
- Received commendations from leadership and clients for high-quality project execution and customer satisfaction.

EDUCATION

B.E in Mechanical Engineering, Vijayanagar Engineering College, Bellary, Visvesvaraya Technological University, Belgaum | **2004**

- Led QA delivery for banking and mortgage applications supporting loan origination through post-closing workflows.
- Designed and executed structured test plans, scenarios, and automation scripts aligned with business and compliance requirements.
- Facilitated Agile ceremonies and supported Scrum adoption across cross-functional teams.
- Managed sprint deliverables, tracked Agile metrics, Creating user stories, Backlog management and coordinated release readiness activities.
- Developed automated test scripts using Selenium WebDriver, Python, and Hybrid Automation Frameworks.
- Delivered analytics dashboards and status reports for leadership and stakeholders.
- Collaborated with development, QA, and business teams to identify risks and implement mitigation strategies.
- Managed resource planning, onboarding, peer reviews, and performance management activities.
- Achieved high-quality releases with zero-defect objectives and improved delivery timelines.

Client: PHH Mortgage. **Environment:** Selenium, Playwright, Python, JMeter, Appium, Oracle SQL, JIRA, Agile, Banking & Lending Applications

Aris Global Software Pvt. Ltd., Bengaluru

Apr 2017 – Feb 2019 | **Associate Tech Lead**

- Managed QA lifecycle activities including test planning, execution, defect tracking, traceability matrix preparation, and release validation. Conducted functional, regression, integration, UAT, smoke, end-to-end, and database testing for healthcare applications.
- Worked closely with Business Analysts and SMEs to clarify requirements and improve test coverage. Delivered end-to-end healthcare solutions with strong knowledge of EHR/EMR systems, clinical workflows, and healthcare interoperability.
- Ensured compliance with HIPAA, GDPR, FDA guidelines, and healthcare QMS standards. Led API integration testing initiatives for secure healthcare data exchange.
- Reviewed test artifacts, mentored junior team members, and conducted training sessions on QA best practices. Supported Agile delivery processes and coordinated cross-functional testing activities.

Clients: Merck, Galderma, Abbott, Alliance. **Environment:** Selenium, Python, Oracle SQL, HP ALM, JIRA, Bugzilla, Healthcare Applications

Infosys Limited, Bengaluru

Jan 2015 – Nov 2016 | **Senior Consultant**

- Developed reusable test plans, test cases, and QA lifecycle documentation for enterprise banking applications. Performed smoke, regression, functional, database, and end-to-end testing across multiple releases.
- Collaborated with Agile teams during sprint execution, release planning, and defect management activities. Tracked defects, risks, and delivery progress using JIRA and reporting dashboards.
- Conducted technical peer reviews and maintained project documentation. Supported fraud monitoring and trade surveillance applications for enterprise banking systems.

Client: Bank of America. **Environment:** Selenium, Python, Oracle SQL, Unix Shell Scripting, JIRA, Banking Applications

Mercer Consulting (India) Private Limited, Bengaluru

Apr 2012 – Dec 2014 | **Database Implementer / Analyst**

- Executed QA lifecycle activities including test strategy preparation, smoke testing, regression testing, and defect tracking. Developed SQL queries, reports, and forms using Oracle tools.
- Conducted application training sessions and supported internal process improvement initiatives.

Ariba Technologies Pvt. Ltd., Bengaluru

Nov 2008 – Feb 2012 | **Associate Analyst**

- Managed sourcing operations, spend analysis, RFx events, and supplier management activities. Delivered data mining and enterprise sourcing projects for global clients.

Enventure Technologies Pvt. Ltd., Bengaluru

Oct 2007 – Nov 2008 | ***Analyst***

- Worked on MRO product data classification, enrichment, and catalog optimization initiatives.

Griha Software Technologies Pvt. Ltd., Bengaluru

Nov 2006 – Sep 2007 | ***Analyst***

- Performed data classification and content enrichment for enterprise catalog management projects.
